Subject: Ore Mining Guidelines - Climax Mo

---

Ron –

Climax wants to expand their operation, requiring additional treatment. At the location the treatment will be located, there is existing wastewater treatment, resulting in use of the waste treatment system exclusion (WTSE) for the pond and conduits to the pond. Climate claims they should also be provided the WTSE for adjacent wetlands, and has provided us with pages 285-287 from your 1982 development document. **Exemption 5 - Deliberative**

**Exemption 5 - Deliberative**

Thanks
